In addition to that he is also heading the solutions wing of Softax's web portal where he answers the sales tax related queries of the members.

OBJECTIVES

Few years ago Tax management was a term that was little used by the profit or non-profit organizations. The tax executives made their management aware of nasty surprises in their department or, preferably, dealt with anything before they developed that way. Now Tax Authorities are more and more aggressive and having been doing their best to make sure that business managers can have no excuses for ignorance about their tax functions.

As the contents of the workshop show, there is a lot more to tax management in Profit or Non-Profit making Organizations than making sure that the right amount of tax is paid on time in the places where it should be paid. Stakeholder communication, the role of technology and the structure of the tax function are other topics that contribute to effective tax management in organizations.

The participants of the workshop will learn how effective tax management can be possible. Gain critical insights, strategies and skills on tax essentials and tips to effectively manage their Organization's and group's tax affairs
